

The aim of the **ReInnovate** project is to focus on using systematic research to facilitate the development of entrepreneurial skills in employees in SMEs. This will allow the company to develop a culture of entrepreneurship or an entrepreneurial mind-set where individuals are inquiry focused, continuously looking for opportunities to improve the business and allowing them to gather the knowledge to put these into action.

The **Reinnovate** partner, IPA, has developed and tested the ICT platform. The object of the ICT Platform methodology is to provide a collaborative workspace to support the learning methodology (IO1) and deliver the learning material (IO2). The ICT Platform (IO3) has the following objectives:

- To guide SMEs through research process and refer them to relevant material as required
- To provide opportunities for collaboration Communities of Practice / Discussion Forums
- Brainstorming tools
- To be a Collaborative platform to allow SMEs and education providers to connect
- To produce reports on research and innovation being undertaken in SMEs

Functional requirements from objectives:

- Collaboration between learners and SMEs
- Functionality should mirror the research process
- Access learning material
- Brainstorming tool
- Collaboration between SMEs and education providers
- Reporting

Key metrics of success

- An ICT platform that meets the needs of SMEs – SME Working Group
- An ICT platform that supports the delivery of the Learning Methodology - Project Management Committee
- An ICT Platform translated into 5 languages
